Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ganesan et al (US 10/831, 022 A1) (hereinafter Gan), 1998.

Gan discloses (see at least pages 1-10, but in particular pages 1-8, and paragraph 0084) all the methods, apparatus, systems, mechanism, and medium described in claims 1-37, including receiving invoice information corresponding to a customer, displaying the invoice amount via a web browser, receiving an input to initiate payment corresponding to the invoice amount, determining whether the invoice amount is at least one of a zero balance and a credit balance, selectively terminating the payment and generating a disallow payment message based upon the determining step, a server apparatus for providing an on-line billing system, an e-billing system, a server apparatus, a computer readable medium, and a payment disallow mechanism. While Gan does not specifically use the terms "zero balance" or "credit balance", he does teach whether or not the customer has funds sufficient to pay the balance due (credit balance) on the invoice, and if not generating a disallow payment message.

Art Unit: 3628

Since Gan's is a patent (now assigned to and used by **Checkfree**) based on an on-line payment system, his method is to pay only balances outstanding; not zero balances. By definition his system determines whether or not there is a zero balance, as a zero balance will be ignored by the payment instructions. Given these facts it would have been obvious to one skilled in the art at the time of the invention to have made and used this invention prior to its priority date.
